#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 6/2/2010 has been entered.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-17, 20, 22, 24-25, 27-28, 31-32, 34-36, 38, 45-46, and 49-53 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification as originally filed fails to disclose 1) wherein the inner conductor contact as a diameter equal to the diameter of the outer conductor contact, 2) wherein the diameter of the outer conductor is equal in length to the diameter of each of the inner conductor contact and outer conductor contact, and 3) wherein the major length of the guidewire and the extended section of the guidewire are

Art Unit: 3737

isodiametric. With respect to (1), the specification only discloses the inner conductor being "approximately the same diameter" as the outer conductor (page 10, lines 5-8).

With respect to (2), the specification only discloses "relatively the same diameter" (page 11, lines 8-10). With respect to (3), the term "isodiametric" lacks antecedent basis in the specification and the specification only discloses "a diameter substantially equal to diameter as the guidewire" (page 10, lines 14-15).

### ***Response to Arguments***

Applicant's arguments with respect to claims 1-17, 20, 22, 24-25, 27-28, 31-32, 34-36, 38, 45-46, and 49-53 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***
